Imaging: Hand X-rays (03/05/2025) - Mild joint space narrowing, no erosions

Physician Note (06/12/2025):

Brian presents for his annual exam and ongoing evaluation of joint discomfort. Reports persistent morning stiffness in fingers and knees lasting ~30 mins. He is able to perform daily activities but notes occasional flare-ups, especially in cold weather.

CRP and ESR remain mildly elevated, but no progression on imaging. Rheumatoid factor
