

## Patient Medical Summary

=====

### IDENTIFICATION

Name: Olivia N. Bennett  
DOB: 01/06/1989  
Sex: Female  
Phone: (817) 555-4387  
Address: 4210 Willow Crest Dr, Fort Worth, TX 76137  
Emergency Contact: Natalie Bennett (Sister) – (817) 555-4388

### INSURANCE

Provider: Cigna

### PRIMARY CARE

Physician: Dr. Emily Cho

### VITAL STATISTICS

Weight: 148 lbs  
Height: 5'7"  
Blood Pressure: 115/74 mmHg

### ALLERGIES

Olivia is allergic to latex and experiences contact dermatitis when exposed. She also reacts to certain perfumes and cleaning agents which trigger mild respiratory symptoms such as sneezing and coughing.

### MEDICAL HISTORY

Olivia was diagnosed with hypothyroidism in 2018 and has since been on hormone replacement therapy. No other chronic conditions beyond that and maintains an active lifestyle with yoga and cycling.

### PAST MEDICATIONS

Currently taking Levothyroxine 75mcg daily. Has used topical corticosteroids for mild skin irritation on occasion for allergic flare-ups. No major side effects reported from prior prescriptions.

### PHYSICIAN NOTES

Olivia visited for routine thyroid function evaluation. She reports stable energy levels and no new symptoms. Lab results indicate values within normal range. Continued diagnosis: well-managed hypothyroidism. Advised regular follow-up every 6 months for labs and symptom tracking. No new medications prescribed.
